Required credits

This programme requires credits in a specific subject for eligibility. You might need to convert local credits to ECTS credits if your university uses a different credit system and does not provide a conversion. Please see any country-specific information at www.universityadmissions.se.

Fill in the following table to aid in determining whether the programme-specific academic requirements are met. Please note. The required credits may be fulfilled as a part of a course. If so, please state the number of credits relevant to the required credits in the specific subject.

Please submit the course syllabus if the course name does not clearly indicate the required subject, or if the required credits are being fulfilled as a part of the course.

Credit Conversion

One ECTS credit is equivalent to one Swedish Higher Education credit. Full-time study in Sweden entails 30 ECTS credits per semester or 60 ECTS credits per year. One week of full-time studies equals 1.5 ECTS credits or 40 hours of studies.

Knowing the total number of credits needed to get a degree in your system and the duration of the degree (number of years) you can estimate the conversion factor (CF) as follows:

$$CF = \frac{number\ of\ years \times 60}{total\ credits}$$

Example: Table of Required credits

For the requirement of Subject	Course name As stated in your Transcript of Records	Credits Local	Credits ECTS	Grade If ongoing mark X	Syllabus submitted (Yes/No)
Algebra	Mathematics I	3	5.1	A	Yes
Statistics	Mathematics II	3 of 5	3 of 5	D	Yes
Archaeology	The Viking Age	6	10.2	В	Yes
Chemistry	Biomaterials II	15	15	VG	No

Required credits

For the requirement of	Course name	Credits	Credits	Grade	Syllabus submitted
Subject	As stated in your Transcript of Records	Local	ECTS	If ongoing mark X	submitted (Yes/No)

Laboratory work and computer-based calculation tools

To certify your practical experiences, please submit relevant documents with your application. Practical experience could include the ability to use programs such as MATLAB, CAD (such as Solid Works) or FEM (such as COMSOL).

• previous experiences with practical laboratory work and computer-based calculation

Please state (max 400 words):

	tools relevant to the programme;
•	why your experiences are suitable for the programme.

Statement of purpose

Please describe (max 400 words):		
•	why you want to study the programme, and why you are a suitable applicant;	
•	how your previous studies and experiences prepare you.
