### **Matter referred to the Board for investigation of misconduct in research**

The matter concerns an allegation of misconduct in research that was submitted to Uppsala University on 20 June 2016.

A preliminary investigation of the matter was carried out which found no evidence of misconduct in research. The Central Ethical Review Board's expert group for misconduct in research then investigated the allegation and issued an opinion in which it found that misconduct had occurred. Johan Tysk, Dean of the Faculty of Science and Technology, decided to refer the matter to the Vice-Chancellor for a decision on whether research misconduct may have occurred.

The matter is referred to the Board for investigation of misconduct in research for further investigation, taking account of the rules in Section 10 of the regulations formerly in effect.

The decision in this matter was taken by the undersigned Vice-Chancellor, following a presentation of the matter by Erik Lempert, legally qualified member and chair of the Board. Administrative Manager Anne Nilsson was also present.
