Required credits

This programme requires credits in a specific subject for eligibility. You might need to convert local credits to ECTS credits if your university uses a different credit system and does not provide a conversion. Please see any country-specific information at www.universityadmissions.se.

Fill in the following table to aid in determining whether the programme-specific academic requirements are met. Please note. The required credits may be fulfilled as a part of a course. If so, please state the number of credits relevant to the required credits in the specific subject.

Please submit the course syllabus if the course name does not clearly indicate the required subject, or if the required credits are being fulfilled as a part of the course.

Credit Conversion

One ECTS credit is equivalent to one Swedish Higher Education credit. Full-time study in Sweden entails 30 ECTS credits per semester or 60 ECTS credits per year. One week of full-time studies equals 1.5 ECTS credits or 40 hours of studies.

Knowing the total number of credits needed to get a degree in your system and the duration of the degree (number of years) you can estimate the conversion factor (CF) as follows:

$$CF = \frac{number\ of\ years \times 60}{total\ credits}$$

Example: Table of Required credits
