

Light & Electron Microscopy. Flow Cytometry & Cell Sorting.
Uppsala University. Platform for Biological Visualization.

Our service:

- ✓ State-of-the-art instruments
- ✓ Experienced staff support
- ✓ Full service: samples to data
- ✓ Independent instrument use
- ✓ Access 24/7

Funded by:

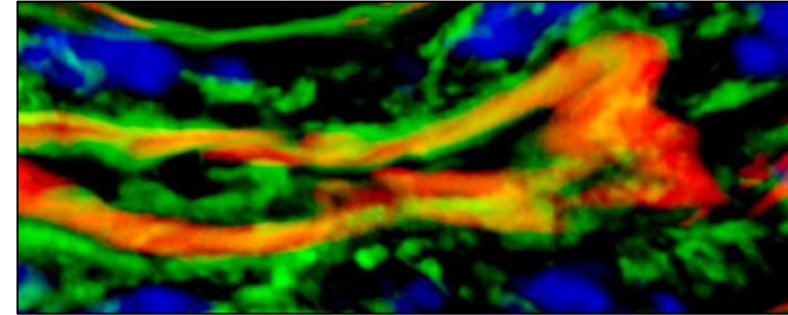

UU, IGP, SciLifeLab & Customers

**Rooted in UU and for UU
researchers**

www.uu.se/biovis

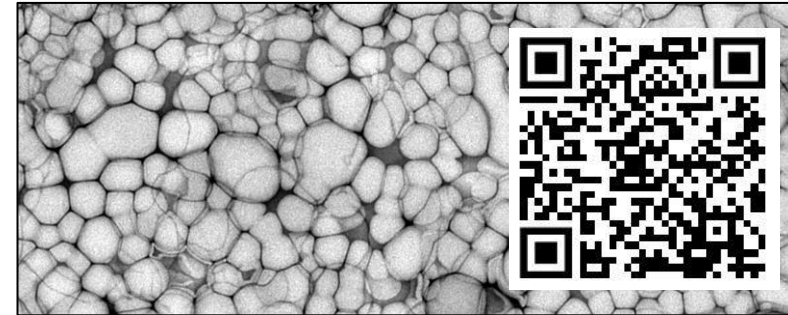

Microscopy

- 6 microscopes
- Nobel-winning technology: STED
- Slide scanning to Confocal
- Superresolution to Intravital

Electron microscopy

- The only TEM openly available to Uppsala customers
- Full service: samples in, data back

Flow cytometry

- Two analyzers (20+ parameters)
- Two Cell sorters (13+ Parameters)
- Plate reader to save time
- Full service available
