

UPPSALA
UNIVERSITET

The Disciplinary Domain of Medicine and Pharmacy

MINUTES

FACULTY MEETING

Time: Thursday 15 June 2023, 15:30–17:00

Place: University Main Building, Lecture Hall IX

Introduction

Vice-Rector Mats Larhed

Up-to-date with the disciplinary domain

Mats Larhed, Eva Tiensuu Janson, Karin Forsberg Nilsson

- *KoF24*. A pre-study for Medfarm's part of the KoF24 evaluation was carried out during the spring. The pre-study will result in a proposal for a plan with directives for how the Disciplinary Domain will implement the KoF24 project. The proposed plan and directives for Medfarm's KoF24 evaluation must be ready for ON on 23 August 2023.
- *New Rules of Procedure*. Next week, the University Board is expected to decide on a change in the criteria for being considered a scientifically competent teacher at UU. The proposal includes an addendum to the definition of persons with scientific competence regarding adjunct professors and senior lecturers at the Faculty of Medicine.
- *Investigation of research and collaboration support at Uppsala University*. University Director Caroline Sjöberg has commissioned an external investigator (Karin Röding) to review how research and collaboration support at Uppsala University can be strengthened. The report has now been handed over to the Director and work continues. [Read more here.](#)
- *ATMP (Advanced Therapy Medicinal Products) centre*. A regional knowledge centre and contact point for implementation and development of the ATMP area is established at Uppsala University Hospital. Read more about [collaboration-ATMP-centre](#). The inauguration takes place on Friday 8 September, 2023.
- *Recruitment of new national Director for SciLifeLab*. Process to recruit a successor to Olli Kallioniemi has started.

Medfarm in Almedalen 2023. Feel free to follow the event remotely or watch afterwards via AlmedalsveckanPlay. Medfarm contributes with about 15 seminars.

- *New Vice-Deans Medfarm:*
 - [Mats Målqvist](#), First and Second Cycle Education at the Faculty of Medicine
 - [Tove Fall](#), Research Infrastructure
 - [Peter Ståhlberg](#), Research Training
- *Other changes:*
 - [Aristidis Moustakas](#) replaces Staffan Svärd as Scientific Director as SciLifeLab UU.
 - [Anna-Karin Olsson](#) appointed chair of the Equal Opportunities Committee.

Evaluation of ALF. The National Board of Health and Welfare has recommended the national steering group for the Agreement between the State and certain regions on medical education and research (ALF) to follow up, no later than 31 August 2024, that the regions have addressed the parts that they currently do not fulfil. If the regions have not remedied the shortcomings within this time, the state is entitled to terminate the agreement. [Evaluation of university healthcare.](#)

Development Office (DO)

Agneta Stålhandske, Head of Division, presents: Fundraising - what is it and why? [Information about the department on the Staff Portal.](#) Feel free to contact the DO if you have relations with potential donors. Fundraising generates more than money, among other things it strengthens UU's brand.

New professors introduce themselves

Anna Dimberg - Professor of Cancer and Vascular Biology (IGP)

Stefan Schwartz - Professor of Medical Virology (IMBIM)

Presentation of proposed honorary doctors 2024

Karin Forsberg Nilsson, Sven Nelander, Bertil Lindahl, Tove Fall

Decisions will be made at the college meeting on 27 September.

Region Uppsalas forskningspris 2022

Erik Weiman och Andreas Muranyi Scheutz

***Bengt Sandén**, Docent in Orthopaedics and Senior Consultant in the spine section, former Deputy Hospital Director and Chief Medical Officer at Uppsala University Hospital, has conducted pioneering research on spinal stenosis that*

has fundamentally changed the treatment principles for a large proportion of patients with spinal stenosis.

***Anders Wanhainen**, Professor of Vascular Surgery with combined employment, has pioneered the introduction of ultrasound screening of the aorta to detect early aortic aneurysms. The screening has now been introduced nationwide, starting in Uppsala, and is estimated to have extended the lives of 1000s of men since its inception.*

***Sten Rubertsson**, Professor of Anaesthesiology with combined employment, is an internationally recognised researcher who has spent almost 40 years improving survival after cardiac arrest with preserved neurological function (quality of life). The focus is on improving the effectiveness of cardiopulmonary resuscitation but also intensive care after successful resuscitation.*

***Lena Wettergren**, Nurse and Professor, receives the prize for her research in sexual and reproductive health in cancer and global health with research in East Africa. Lena leads the Fex-Can research programme, which examines the sexual and reproductive health of young adults with cancer.*

***Jonas Oldgren**, Senior Consultant and Professor, receives the prize for his longstanding work in clinical coagulation research with innovative and very large studies that have contributed to a radical improvement in the treatment of the serious public health problem of atrial fibrillation.*

Next faculty meeting Wednesday, 27 September, 2023

Recorder,
Agneta Mattsson
