

Accredited methods

Technical area: Molecular biology

Component/Examination - System	Method	Equipment (Chemistry)
Genotyping - DNA	Infinium HD Infinium LCG/HTS	iScan
DNA methylation analysis - DNA	EZ DNA Methylation +Infinium HD Methylation Ready-made libraries	NovaSeq 6000 (v1.5) NovaSeq X Plus X (XLEAP- SBS chemistry, 1 st version)
Targeted genome analysis - DNA	Ready-made libraries	
Whole genome analysis -DNA	TruSeq Nano DNA sample prep TruSeq PCR free DNA sample prep Ready-made libraries	
Transcriptome analysis -RNA	TruSeq stranded mRNA prep Ready-made libraries
