

## Annex to Learning Agreement for Erasmus+ studies

### Transferring credits from exchange studies courses

Transfer of credits from exchange studies will be made upon return from completed exchange studies after application from the student. The application form is handed in with an Official Transcript/Certificate showing fulfilled courses.

The transfer of credits is always made towards a degree, either as general credits towards a degree or a specific course/subject and level in a degree.

Transfer of credits will be made according to the mobility programme in the Learning Agreement, under the following circumstances:

- The courses are equivalent to Swedish university level.
- The credits in the Learning Agreement are equivalent to the credits in the Official Transcript provided by the host university after the exchange studies.

### More information about transfer of credits at Uppsala University

More information about the transfer of credits can be found here:
